NATIONAL SECURITY ACTION MEMORANDUM NO. 95

FOR: THE SECRETARY OF STATE

SUBJECT: Renegotiation of Panama Canal Treaty

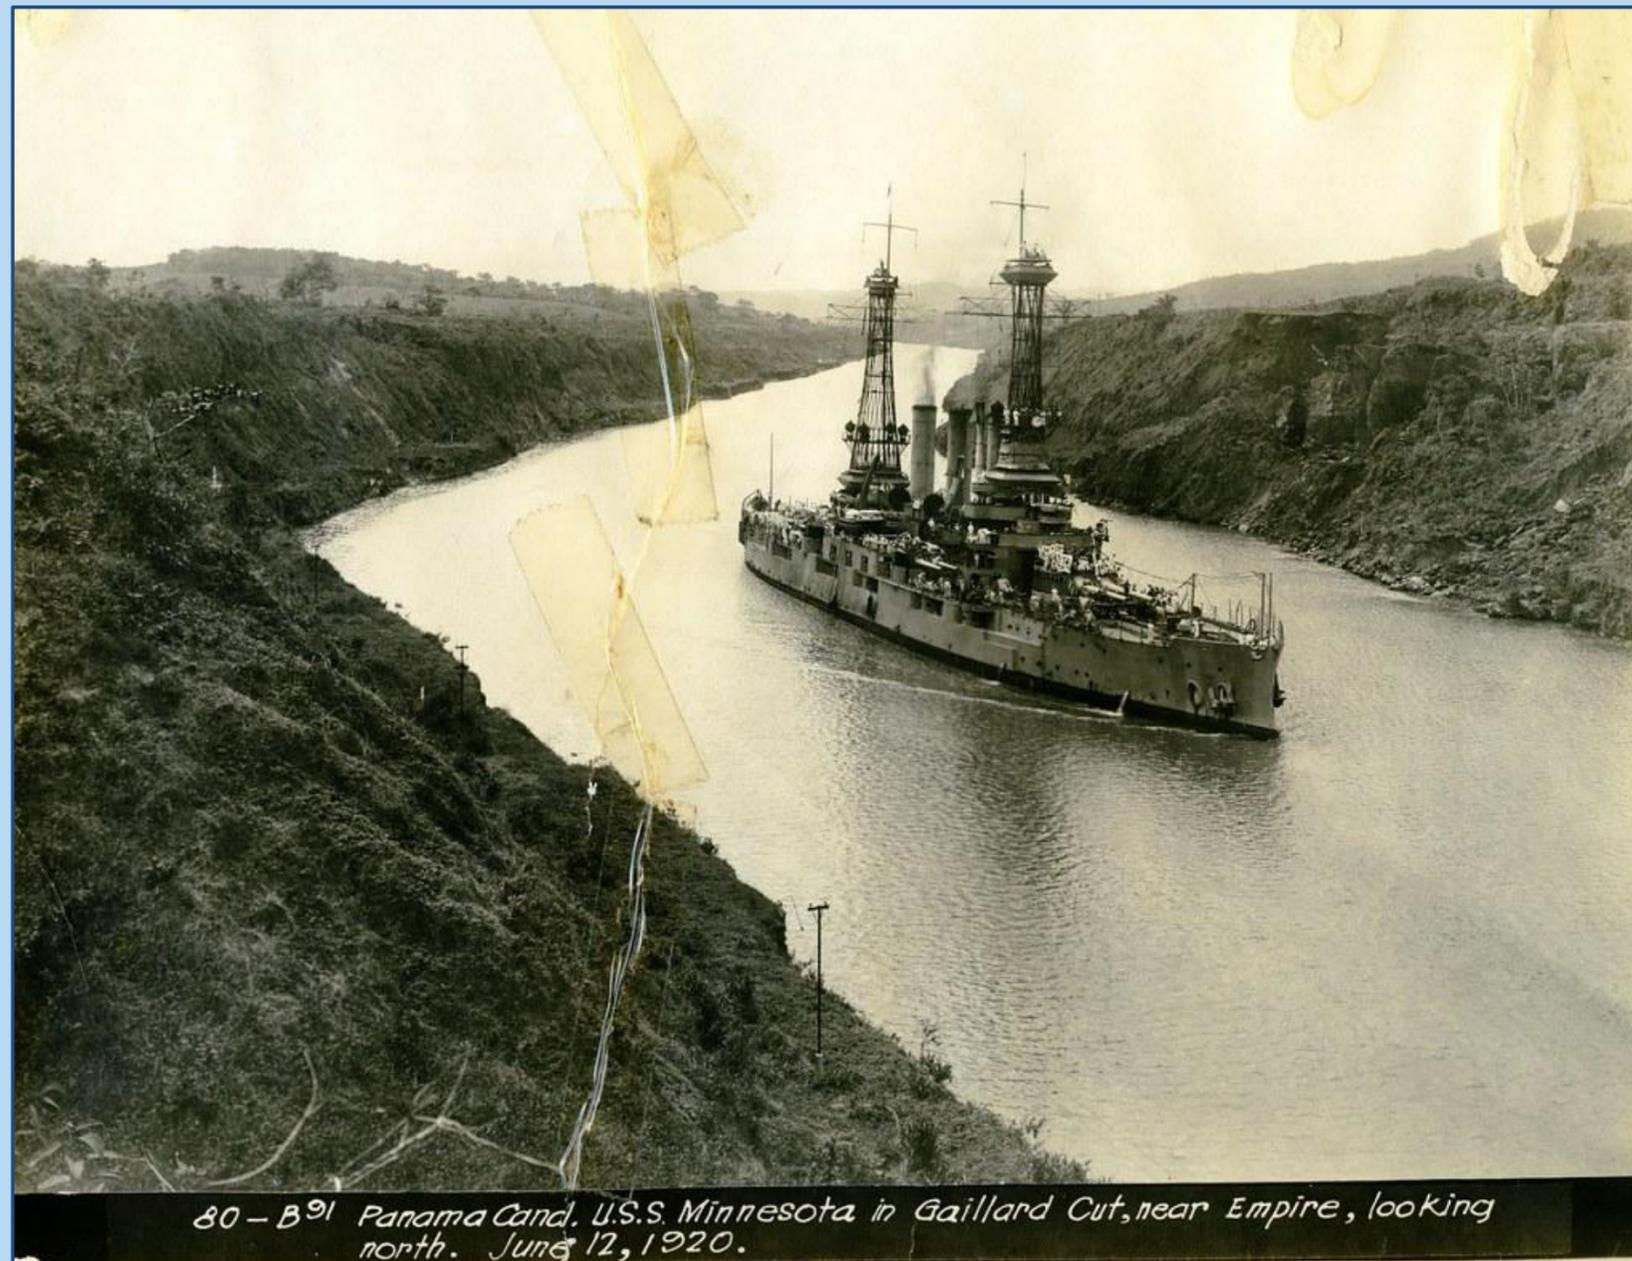

As you know, the President of Panama has sent me a letter requesting that we re-negotiate our Panama Canal Treaties. It seems to me we should take a careful look at this problem with a view to analyzing what our basic interests are in the Canal Zone, what concessions we could make, and on what terms we could reasonably expect to get a long-term settlement. After we formulate our own views we should discuss them quietly with the Panamanians. We don't want to make a public announcement of negotiations until we have decided what the result of the talks will be.

I think we should establish a special working group with Assistant Secretary Woodward as Chairman, including representatives from Defense, the Budget Bureau, Jerry Wiesner and Dick Goodwin. I would like the recommendations of this group within the next two weeks. After that we can go ahead and begin some talks with the Panamanians. You might also bring Farland up for consultation with the group.

~~CONFIDENTIAL~~
